

Single Entry Button Lock

Product ID: BL

The Acsys Single Entry Button Lock is a mechatronic cylinder lock that requires an Acsys key for entry on one side, while the other can be locked or opened with the turn of the button. Containing programmable logic to control access of up to 1 million keys and top-grade encryption standards, these electronic features are complemented by a variety of mechanical anti-theft measures.

General	
Dimensions	60mm - 140mm
Material	Brass with stainless steel plating
Standard	Euro DIN
